GUIDE FOR ADVISORY PAGES

EXAMPLE

- Include 1 headshot frame and another larger frame for group advisory photos

****DESIGN - FILE SIZE LIMIT****

- Last year we encountered some problems with pages being too large, so we need to be mindful of that
- Likely less than 30MB
- If they are too large, the printing company cannot open them.
If you created a component/backdrop with adobe programs, please try exporting into jpg or png and then putting it in the final page!
